Mrs Marshall's Messages:

This morning, our Junior Leadership Team (JLT) held an engaging assembly about recycling plastics. They shared practical ideas like recycling plastic lids and reducing the use of glue stick plastics and how the reducing of plastics helps reduce waste in the oceans. They discussed how they will be litter picking in the Spring and planting some trees to support the environment.

As we encourage sustainable practices, you might like to discuss these ideas at home.

I also want to thank everyone who brought their children to the service last Sunday. They impressed us all with their confidence and enthusiasm singing at the Lost Trawlerman's Service. They were fabulous! Thank you for your continuous support of our school community. If you have any questions or suggestions, please feel free to reach out.

Number Day 2024

NSPCC Number Day 2025

Friday 7th February

Chiltern Primary School are taking part in the NSPCC number day. There are multiple mathematical activities that have been planned to engage your child with Maths and have fun while helping to raise money for the NSPCC.

All children are encouraged to come to school dressed as something mathematical- for example, a t-shirt with numbers on, Roman numerals, quantity of spots or their TTRS avatar (KS2 pupils).

This week's talking task:

TAKEHOME

27th January - 2nd February

Who should be involved in key decisions for the world?

British Values

Democracy

We all have the right to share our ideas and be listened to. At COP29, world leaders showed democracy in action by working together to make decisions that will protect our planet.

Protected Characteristics

The Earth's climate impacts everyone, no matter their background or nationality. To find solutions that work for everyone, it's important to listen to voices from all countries equally.

In the news this week

New data has shown that 2024 was the Earth's hottest year on record, warming by 1.5°C. Around 200 countries had agreed to help keep the temperature rise below this figure because scientists say that increases could cause more extreme weather. This includes events such as heatwaves, storms, and wildfires.

Things to talk about at home ...

- Share what you know about climate change with others at home, and ask others to share their understanding.
- Do you think more could and should be done to tackle climate change? If so, what and by whom?
